Asterisk As A Gateway. Asterisk can be used to build a gateway using a standard computer and one or more telephony interface cards. Alternately, Sangoma offers a line of VoIP gateways.In either case, the end product is significantly more flexible and significantly less expensive than legacy gateway products.

Gateway • Asterisk

Digium has been in the VoIP gateway business since we started manufacturing cards in 2003. From the very beginning, clever people have used Digium cards, Asterisk, and ordinary computer hardware to build VoIP-to-TDM gateways. Just pop a card into a computer, install Linux, DAHDi, and Asterisk, and configure to taste.

VoIP Gateways • Asterisk

Asterisk Gateway Interface (AGI) Skip to end of metadata ... Overview AGI is analogous to CGI in Apache. AGI provides an interface between the Asterisk dialplan and an external program that wants to manipulate a channel in the dialplan. In general, the interface is synchronous - actions taken on a channel from an AGI block and do not return ...

Writing VoIP applications in PHP for Asterisk using PAMI. NOTE: If you are just looking for an introduction to ami and PAMI, take a look at: "Getting Started with the PAMI: PHP Asterisk Manager Interface = Easy Asterisk Monitoring".

Create VoIP applications for Asterisk using PHP, PAMI, and ...

In addition to VoIP protocols, Asterisk supports traditional circuit-switching protocols such as ISDN and SS7. This requires appropriate hardware interface cards, marketed by third-party vendors. Each protocol requires the installation of software modules. In Asterisk release 14 the Opus audio codec is supported.

Asterisk (PBX) - Wikipedia

The Asterisk Gateway Interface, or AGI, provides a standard interface by which external programs may control the Asterisk dialplan. Usually, AGI scripts are used to do advanced logic, communicate with relational databases (such as PostgreSQL or MySQL), and access other external resources. Turning over control of the dialplan to an external AGI script enables Asterisk to easily perform tasks ...

Chapter 9. The Asterisk Gateway Interface (AGI)

Don't forget to grant execution rights to your script (chmod 755 yourscrip.php), so that Asterisk can execute it. Let's examine the AGI script we've just seen: Lines 1-5: These provide a generic startup for our AGI script.
