Peter Homans poses the theory that much of Jung's psychology has been splintered and misinterpreted due to a failure to view the many aspects of Jungian thought as a whole. Homans believes that a new approach is needed, an approach he calls "contextual". The central theme is an attempt to reintegrate the psychology into its original context.

Definitions and Characteristics of Modernity : Since the term "Modern" is used to describe a wide range of periods, any definition of modernity must account for the context in question. Modern can mean all of post-medieval European history, in the context of dividing history into three large epochs: Antiquity, Medieval, and Modern.

Definitions and Characteristics of Modernity

Jung had a talent for creating relatively simple, functional psychological models ("schemas"), which are straightforward enough that they have often entered the common modern lexicon. For instance, introvert/extrovert, the 4 way or quaternary arrangement of the self types, the shadow, and so

on — these are all dangerously practical ideas.

Jungian archetypes are defined as universal, archaic symbols and images that derive from the collective unconscious, as proposed by Carl Jung. They are the psychic counterpart of instinct. That is to say they are a kind of innate unspecific knowledge, derived from the sum total of human history, which prefigures and directs conscious behavior.

Jungian archetypes - Wikipedia

Indeed, the modern world is characterized by what Jung calls the culture of "mass man," hugely organized societies accompanied by a pervasive lack of meaningfulness. Because we cannot convince ourselves that the symbols and rituals of our traditional religions are still compelling, each of us has no alternative but to discover the unconscious source of meaning for ourselves.
