least every 30,000 miles or at the most 60,000 miles, depending on the make and model of the manual vehicle. You'll want to check your car manual for the actual recommended interval.

How Often to Change Transmission Fluid (Manual and Automatic)

If you drive manual, most manufacturers

Read Book Manual

Transmission Oil Change Interval

will recommend changing your transmission fluid every 30,000 to 60,000 miles. If you have automatic, you can typically boost that range up to 60,000 to 100,000 miles. There's no harm in changing your fluid early.
